

**Step 1:** Explain the topic, the research question and the significance of your research.

**Topic**

**Research Question**

**Significance**

**Step 2:** Provide what you think is the most appropriate sentence to each blank, so that the outline below well-explains the current research project.

**Step 3:** In the presented reasoning, have you found any logical leap? If so, acknowledge the limitation/possible question from your imaginary reader, and provide a response, so the reader can reasonably understand the flow in your argumentation. If you have found more than one, explain all the cases.
